

PURINA®
PRO PLAN®
VETERINARY DIETS

FELINE & CANINE RANGES

30 YEARS OF SCIENTIFIC INNOVATION IN PET NUTRITION

Nestlé PURINA®'s global team includes over 500 scientists and petcare experts that have created many successful veterinary tools and nutritional innovations that deliver significant clinical advantages.

We are fully committed to investing in the development of new breakthrough technologies that can both be applied to our diets and further advance the scientific knowledge of canine and feline nutrition and specific metabolism. Some of our innovative tools include the PURINA® Body Condition Score, the Canine Cognitive Assessment Scale and the new Tailored Feeding Calculator.

We control our entire value chain and use high-quality ingredients, carefully selected to safely deliver advanced nutrition with proven results.

Our PRO PLAN® Veterinary Diets range is concise, science-based with effective formulas, proven to support the management of specific health conditions of cats and dogs.

Some of our greatest product innovations include:

PURINA® PRO PLAN® VETERINARY DIETS EN GASTROINTESTINAL™ – first diet to incorporate Medium Chain Triglycerides (MCTs) in canine diets to help in the nutritional support of gastrointestinal issues.

PURINA® PRO PLAN® VETERINARY DIETS HA HYPOALLERGENIC™ – first diet to use low molecular weight protein nutrition which helps diagnose and manage the clinical signs of food allergy.

PURINA® PRO PLAN® VETERINARY DIETS OM OBESITY MANAGEMENT™ – first diet to use high protein levels to help maintain lean body mass during weight loss.

PURINA® PRO PLAN® Hydra Care™ – a new concept in hydration for cats.

PURINA® PRO PLAN® FORTIFLORA® – the first probiotic supplement, containing the SF68® strain exclusive to Purina, clinically proven to help promote intestinal health and balance.

FELINE Range

PURINA® PRO PLAN® VETERINARY DIETS	KEY BENEFITS
NF RENAL FUNCTION™ EARLY CARE	Formulated with moderate levels of high-quality proteins and early restricted level of phosphorous for the support of renal function in case of IRIS stages 1 & 2 of chronic renal insufficiency.
NF RENAL FUNCTION™ ADVANCED CARE	Formulated with restricted levels of high-quality proteins and low level of phosphorous, with increased levels of EPA & DHA for the support of renal function in case of IRIS stages 3 & 4 of chronic renal insufficiency.
UR^{St/Ox} URINARY™	With St/Ox urinary security and controlled level of magnesium to help dissolve struvite uroliths and help reduce the risk of recurrence of struvite and calcium oxalate stones.
EN^{St/Ox} GASTROINTESTINAL™	Formulated with highly digestible ingredients, prebiotics and moderate fat levels to help reduce workload of the compromised gut and help improve intestinal health.
HA^{St/Ox} HYPOALLERGENIC™	Formulated with hydrolysed protein sources and purified carbohydrates to help avoid allergic responses.
HP^{St/Ox} HEPATIC™	Formulated with adapted level of high quality proteins, high level of essential fatty acids, high energy and restricted levels of copper for the support of liver function in the case of chronic liver insufficiency.
OM^{St/Ox} OBESITY™ MANAGEMENT	Formulated with high levels of protein, low in calories and with high levels of fibre. A proven effective solution for weight loss and suitable for weight maintenance in cats prone to obesity.
DM^{St/Ox} DIABETES™ MANAGEMENT	With low level of rapid-glucose releasing carbohydrates to help reduce blood glucose variation, and increased levels of vitamin E to reduce oxidative stress.
CN CONVALESCENCE™	With high energy density, high concentrations of essential nutrients and highly digestible ingredients for nutritional restoration and convalescence.

COMPLEMENTARY PET FOOD – SUPPLEMENTS

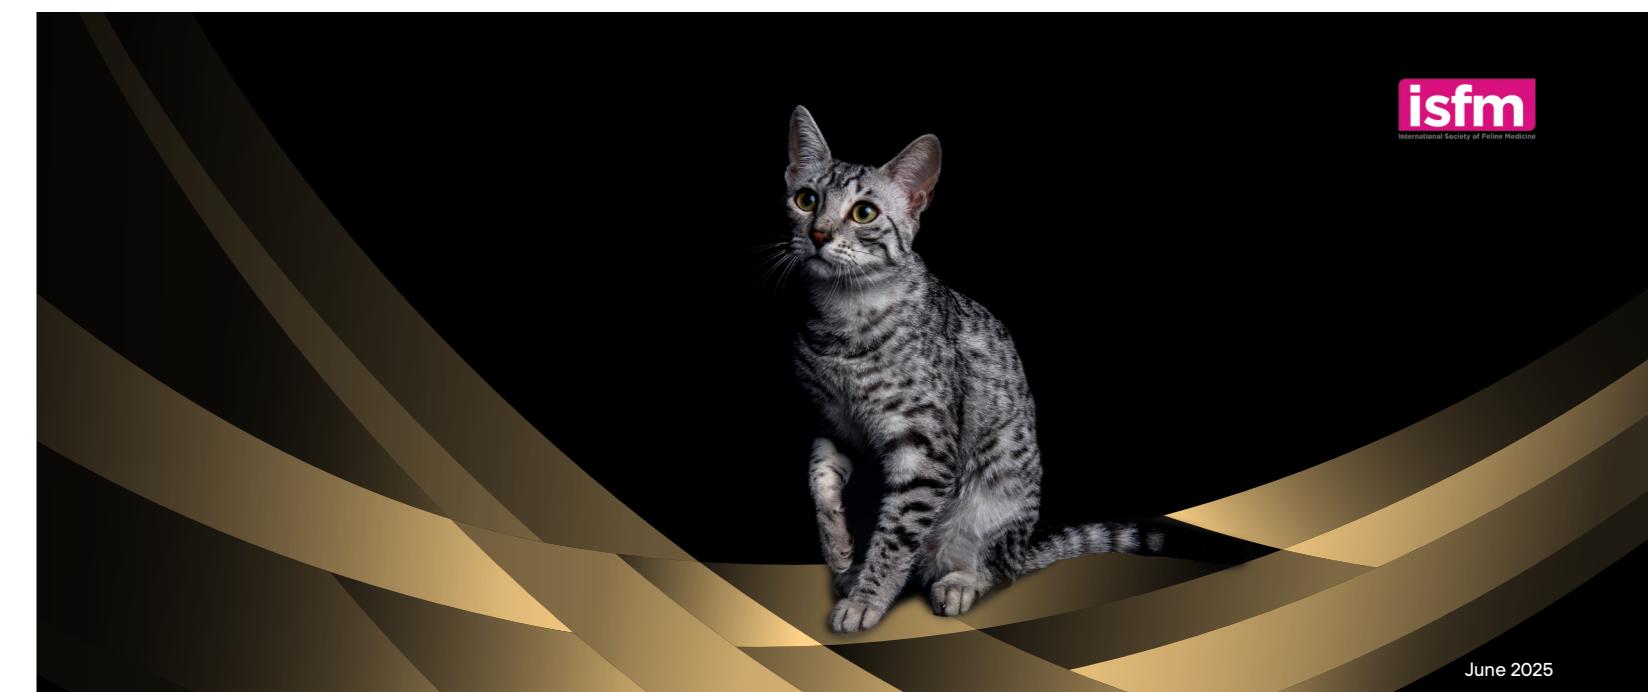

PURINA® PRO PLAN®	KEY BENEFITS
FortiFlora®	Guaranteed level of microencapsulated probiotic, proven to help support a healthy immune system and help support intestinal health and balance in cats of all ages.
HC HYDRACARE™	Formulated to increase water intake and urine dilution.

CANINE Range

PURINA® PRO PLAN® VETERINARY DIETS

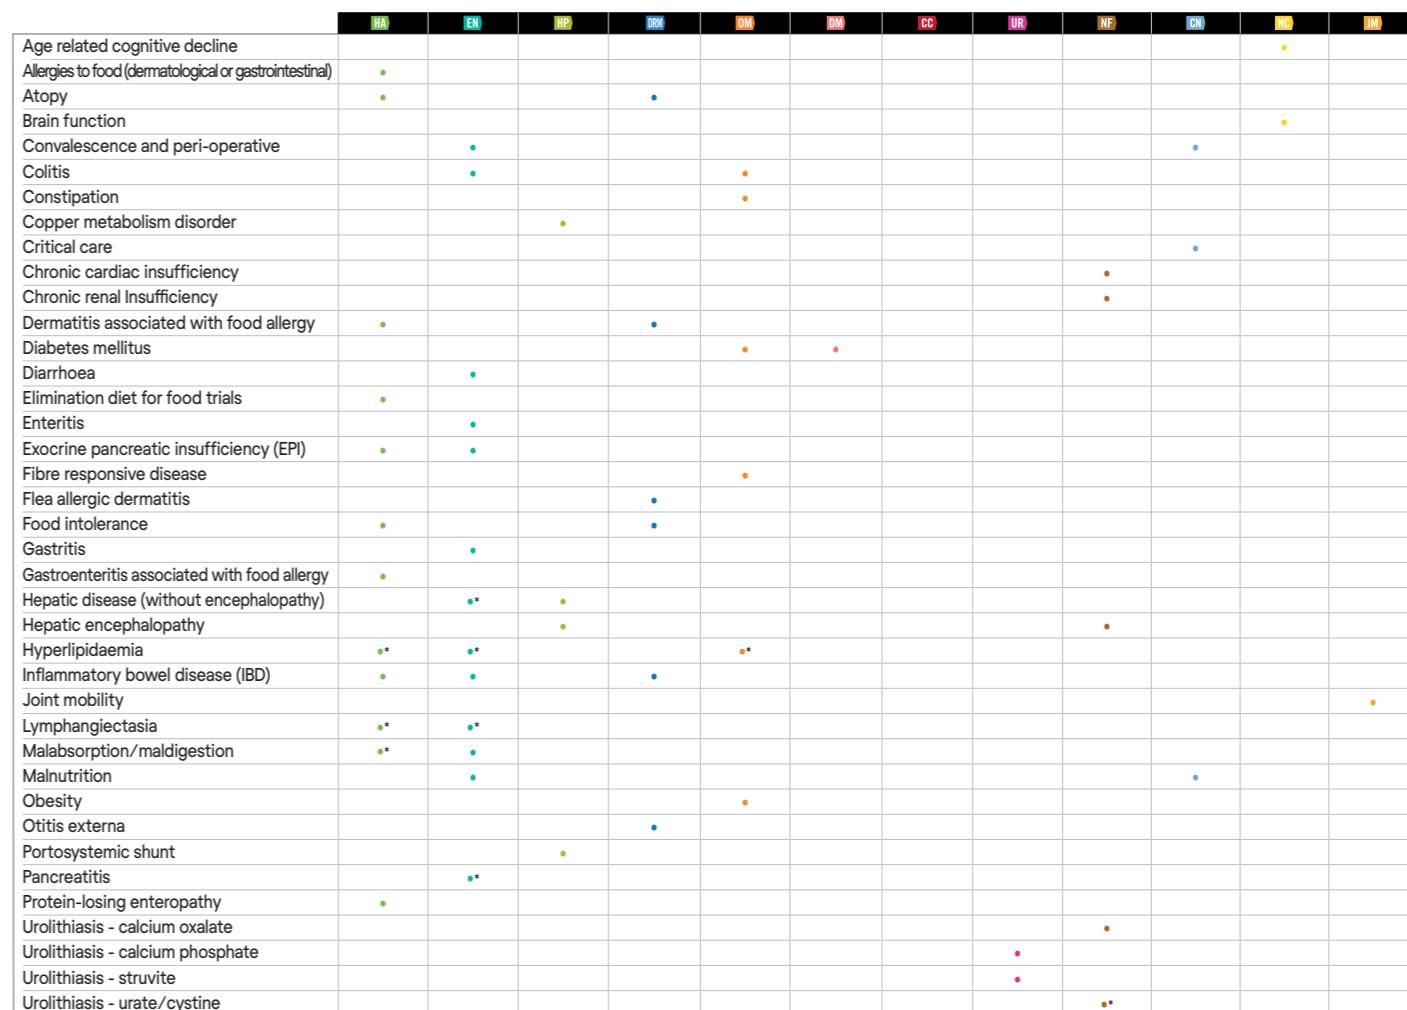

KEY BENEFITS

HA HYPOALLERGENIC™	Formulated with single hydrolysed protein and purified carbohydrate sources to help avoid allergic responses.
EN GASTROINTESTINAL™	Formulated with highly digestible ingredients to reduce workload of the compromised gut and low level of fat to help minimise fat maldigestion.
OM OBESITY™ MANAGEMENT	Formulated with high levels of protein, low in calories and with high levels of natural fibre, proven to help promote effective and steady weight loss. Helps maintain optimal body weight after weight loss.
NF RENAL FUNCTION™	Formulated with restricted levels of high-quality proteins and low level of phosphorous to support renal function in case of chronic renal insufficiency.
DRM DERMATOSIS™	Formulated with increased levels of specific nutrients, a selected and limited number of protein sources and high levels of omega-3 fatty acids to support skin function in the case of dermatosis and excessive hair loss.
DM DIABETES™ MANAGEMENT	With low level of rapid-glucose releasing carbohydrates, optimal levels of fibre and white bean extract to help reduce blood glucose variation.
UR URINARY™	Formulated with low level of magnesium and moderate level of high quality protein to help dissolve struvite stones and minimise recurrence.
HP HEPATIC™	Formulated with moderate level of high quality protein and highly digestible carbohydrates to help reduce accumulation of toxins. It also contains restricted levels of copper to reduce build-up in the liver and high levels of essential fatty acids.
CN CONVALESCENCE™	With high energy density, high concentrations of essential nutrients and highly digestible ingredients for nutritional restoration and convalescence.
CC CARDIOCARE™	For the support of heart function in the case of chronic cardiac insufficiency.

PURINA® PRO PLAN®	KEY BENEFITS
NC NEUROCARE™	Formulated with MCTs (medium-chain triglycerides) and neurosupportive nutrients clinically proven to help enhance canine brain and cognitive function.
JM JOINT MOBILITY™	Formulated with increased levels of omega-3 fatty acids, including EPA, to help support dogs with decreased joint mobility. It also contains increased antioxidants, vitamin E and C to help reduce oxidative stress.
FortiFlora®	Guaranteed level of microencapsulated probiotic, proven to help support a healthy immune system and help support intestinal health and balance in dogs of all ages.
